PREFACE.

This History of the United States
'Tis not pretended higher rates
Than Bancroft, Barnes or Lossing!
But to the student pressed for time,
This condensation clothed in rhyme
'Tis hoped will prove a blessing.

DE SOTO AND THE MISSISSIPPI.

ILLUSTRATED STORY OF THE UNION IN RHYME.

DISCOVERIES.

About the year ten hundred two,
So Iceland's legends say,
Norwegians saw America
From Greenland to Cape May.
Four hundred years of silence came,
The Northmen's trips had ceased,
When Europe's enterprise sought out
The commerce of the East,
In Christopher Columbus' day,
A Genoese by birth,
Who, studying navigation, guessed
The roundness of the earth,

A. D.
1002.

And said that Asia might be reached

By sailing to the West:

Spain's Ferdinand and Isabel

Gave means to make the test.

They fitted out two caravels,

Columbus bought a third,

Aug. 3, 1492. And sailed from Palos, in old Spain,

With sixscore men on board.

When seventy days of fruitless search

Had wearied out his crew,

Oct. 12, 1492. Columbus saw San Salvador

In fourteen ninety-two.

When Cuba, San Domingo's shore,

And smaller isles were seen,

He carried back to Spain next year

The tidings to the Queen.

John Cabot gained from Henry Seventh

A patent to explore,

And with his son Sebastian found

July 3, 1497. The coast of Labrador.

FIRST NEW ENGLAND WASH DAY.

Sebastian fourteen ninety-eight

A second voyage made,

And searched to Carolina's shore,

1498.

For purposes of trade.

He afterwards found Hudson's Bay,

1517.

And when King Henry died,

For Spain he voyaged to Brazil,

1526.

And saw La Plata's tide.

Columbus Orinoco saw,

Aug. 10, 1498.

In fourteen ninety-eight,

But rivals sent him home in chains,

To gratify their hate.

The Queen released him, and he sailed

Once more the westward way,

But ere returning she had died

And enemies held sway.

Columbus, suffering from neglect,

At Valladolid died;

May 20, 1506.

His bones beneath Havana's soil,

In Cuba, now abide.

He made four voyages in all,
Formed settlements abroad,
But never knew the magnitude
Of what he had explored.
Discoveries were concealed by Spain,
And jealous rivals hurled
Such calumnies, Columbus lost
The naming of a world.
Americus Vespucius,
A Florentine, made claim
That he discovered the New World,
And thus it bears his name.
He sailed to South America
In fourteen ninety-nine,
And, five years later, made reports
That favored his design.
Cortereal, for Portugal,
Six hundred miles or more
Of North America explored,
And off to slavery bore

1499.

1504.

1500.

BRITISH AND INDIANS.

Some fifty of the Indians.

In this unholy strife,

Upon a second rash attempt,

1501.

He forfeited his life.

The Frenchmen came to Newfoundland

1504.

To fish, in fifteen four,

They named Cape Breton and explored

The great St. Lawrence shore.

Some voyagers saw Yucatan,

And, fifteen hundred ten,

Balboa with a colony

Encamped at Darien.

1510.

In fifteen thirteen, he the great

Sept. 29, 1513.

Pacific Ocean spied,

And took possession for old Spain,

Of all its boundless tide.

Juan Ponce De Leon, fifteen twelve,

The Fount of Youth to gain,

Discovering Florida, was made

April 6, 1512.

Its governor by Spain.

1521. But when he came to settle there,
The Indians defied
The Spaniards, who to Cuba fled,
Where Ponce de Leon died.
1517. Then Cordova found Mexico:
1518. Grijalva searched anew,
1519-21. And Cortes conquered Mexico,
1531. Pizarro took Peru.
1520. De Ayllon, seeking Indian slaves,
From San Domingo sailed
To Carolina for his prey ;
1525. A second voyage failed.
1523. John Verrazani sailed from France,
In fifteen twenty-three,
And leaving Carolina reached
1524. The fiftieth degree.
1528. Narvaez went to Florida
New settlements to form ;
In crazy boats he fled to sea,
And perished in a storm.

TRAINING-DAY ON BOSTON COMMON.

De Soto, Cuba's governor,

1539-41.

Came next with crowded ranks;

He marched three thousand miles, and died

On Mississippi's banks.

One half of his six hundred died,

The rest resolved to flee,

And, failing to escape by land,

Built boats and reached the sea.

Jacques Cartier, in thirty-four,

1534.

Two ships took out from France,

And made attempt in Canada

French glory to advance.

Next year he made a second trip,

And on St. Lawrence day,

1535.

Explored the Gulf that took this name

And up its stream made way.

The vessels anchored at Quebec,

And, taking boats, he came

To Hochelaga's Isle, and gave

To Montreal its name.

- Again, in fifteen forty-one,
1541. He voyaged to Quebec,
And near the village built a fort,
The Indians to check.
He left ere Roberval appeared,
Who, sent out by the King
1542. To act as viceroy, sailed again
Disheartened, in the spring.
1542. Cabrillo, fifteen forty-two,
Explored by Spain's command,
From Acapulco, steering north,
Along the Western land.
Coligny, Admiral of France,
A place of refuge gave
To persecuted Huguenots
Across the Atlantic wave.
A squadron under Ribault sailed
1562. And reached Port Royal Bay;
A colony of twenty-six
Decided there to stay.

FANEUIL HALL, BOSTON.
"The Cradle of Liberty."

To honor Charles the Ninth, the land
Was Carolina styled;
But failing to receive supplies,
They left the Western wild.
Another expedition came,
Led by Laudonniere,
To the St. John's, in Florida, 1564.
And built a fortress there.
This rousing Spanish jealousy,
Melendez brought a crew,
Who, settling at St. Augustine, 1565.
Nine hundred Frenchmen slew.
A fiery Gascon named De Gourges,
In anger crossed the seas,
Secured two hundred prisoners
And hung them to the trees.
He fled, and Spain retained the land;
St. Augustine thus rates
The oldest town existing now
Within the United States.

- 1576-77. For gold, and northwest passages
To reach East Indian trade,
Three unsuccessful voyages
By Frobisher were made.
- 1578-80. In seventy-nine, Sir Francis Drake
Passed California's coast;
And John de Fuca, later on,
Still further search could boast.
Sir Humphrey Gilbert for his queen
Made claim to Newfoundland;
1583. His little vessel of ten tons
Went down with all its band.
1584. Then Walter Raleigh for himself,
With patents to explore,
Sent Amidas and Barlow out
To Carolina's shore.
The land was called Virginia
By England's virgin queen,
And Raleigh, knighted, sent more ships
To settle his demesne.

FAMOUS RIDE OF PAUL REVERE.

Sir Richard Grenville led the fleet
And founded Roanoke;
But Indian hostility
They managed to provoke,
And after suffering much distress,
Were eager to forsake
The colony, and go on board
The ships of Francis Drake.
They scarce had sailed when ships arrived
With bountiful supplies;
And Grenville landed fifteen men
To hold the enterprise.
Then Raleigh sent more emigrants
With Governor White, who found
The bones of all the fifteen men
Exposed upon the ground.
Returning home to get supplies,
He left a hundred there,
Among whom was the first born child
They called Virginia Dare.

1585.

1586.

1587.

1590. Three years elapsed before John White
The settlement regained;
The colony had disappeared,
No vestige then remained.
Sir Walter sent five different times,
But never found a trace;
'Tis thought they joined the Indians,
And mingled with their race.
1602. Gosnold, in sixteen hundred two,
Explored and named Cape Cod;
1603. Then Martin Pring, and Weymouth next,
1605. Maine's territory trod.

VIRGINIA.

The chartered London Company,
A settlement to form,
Sent Newport out to Roanoke,
But, driven by a storm,
He found the Bay of Chesapeake,
Up the James River came,

BOSTON BOYS AND GENERAL GAGE.

May twenty-third, in sixteen seven;

May 23, 1607.

Thus Jamestown took its name.

Gosnold, projector of the plan,

And half the settlers died;

The rulers proving weak and bad,

John Smith was wisely tried.

He organized the colony,

But, travelling through the lands,

Was captured, and two men were slain

By savage Indian bands.

Condemned to die, his life was saved

By Pocahontas' love,

Who, clinging to his neck, detained

The clubs that swung above.

The settlement was reinforced

With idle gentlemen;

An accident made Smith go home;

Disaster followed then;

And as the starving colonists

Were sailing far away,

- Lord Delaware with full supplies
1610. Arrived within the bay.
1611. Then Gates came out with working men,
Prosperity returned;
1613. Fair Pocahontas married Rolfe;
Powhatan's love was earned.
By emigration every year,
The State was firmly planted;
1621. King James, in sixteen twenty-one,
A constitution granted.

NEW ENGLAND — MASSACHUSETTS.

- The Plymouth Company resolved
New lands abroad to gain;
An unsuccessful settlement
1607. George Popham made in Maine.
1614. In sixteen fourteen, brave John Smith
The region well explored,
And, naming it New England, sailed
To spread its fame abroad.

GEORGE WASHINGTON.

Born 1732, died 1799. Commander-in-chief of the Colonial Forces, War of Independence.
Elected first President of the United States 1789.

He came to form a colony
With sixteen men next year,
But, captured by French pirates, lost 1615.
His ship and all its gear.
The persecuted Puritans
Away from England fled;
John Robinson, in sixteen eight, 1608.
His faithful followers led
To Leyden, where they formed a church
And heard Dutch sailors tell
Of favored lands across the sea,
Where they in peace might dwell.
An embassy, to England sent,
Got leave to colonize,
And London merchants furnished means
To purchase their supplies.
Although the *Speedwell's* courage failed,
The *Mayflower* spread her sails
At Plymouth, with a hundred souls, Sept. 6, 1620.
And braved the Atlantic gales.

They sailed nine weeks and safely reached
The harbor of Cape Cod,
Rejoicing in a land that gave
Freedom to worship God.
They gathered in the cabin there,
A constitution wrote,
And made John Carver governor,
By universal vote.
They set their feet on Plymouth Rock,
December twenty-second,
In sixteen twenty; from this date
The settlement is reckoned.
The governor and nearly half
Of all the little nation,
Ere summer came had lost their lives
Through sickness and privation.
Their hopes were dull, when Samoset,
An Indian chief, appeared,
And shouting, "Welcome, Englishmen!"
Their drooping spirits cheered.

1620.

1621.

THE MINUTE MEN.

A treaty, formed with Massassoit,
For fifty years was kept;
And Bradford thirty years was made
The ruler's place to accept.
A colony, at Weymouth formed,
Aroused the Indian foe;
Miles Standish to the rescue came 1623.
In time to avert the blow.
John Endicott, with five score men, 1628.
To Salem came to stay,
And there he formed the colony
Of Massachusetts Bay.
Next year "three godly ministers" 1629.
Two hundred settlers brought
From England, and on Charlestown Neck
A residence they sought.
John Winthrop fifteen hundred brought,
In sixteen hundred thirty,
And Boston, with its neighboring towns, 1630.
Was settled by this party.

1635. Three thousand settlers came one year,
Among them Henry Vane,
1636. Who served a year as governor
And sailed for home again.
The Puritans most highly prized
The freedom they had bought,
But yet denied to other men
The liberty of thought.
In Salem, Roger Williams preached
That rulers had no right
To dictate in religious things,
Man's conscience is his light.
1635. He, banished, fled to wintry wilds
Where savages abounded;
Canonicus then gave him land;
1637. Rhode Island thus was founded.
Anne Hutchinson's peculiar creed
Caused Boston much dissension;
1637. Imprisonment, then banishment,
Were meted by convention.

WASHINGTON AT VALLEY FORGE.

New England's colonies were joined, 1643.
In sixteen forty-three,
Except Rhode Island, which had failed
With Plymouth to agree.
Ten Quakers, who had crossed the sea,
Were back to England shipped, 1656.
But others came, and, for their faith,
Were hanged, imprisoned, whipped.
But when the persecutions ceased, 1661.
The Quaker zeal was staid,
And seconding John Eliot's work,
They gave the Indians aid.
Good Massassoit kept the peace;
By English growth made sore,
His son the friendly treaties broke,
And waged King Philip's war. 1675.
New England's fiercest Indian tribes
This wrathful chieftain led,
And fearful slaughter raged a year,
Till Church cut off his head. 1676.

Two judges, who condemned Charles First,
Were sheltered in the land;
1660. This brought a Navigation Act
From Charles the Second's hand.
It favored England in their trade,
And hindered foreign barter,
1683. And Charles, to gain control, annulled
The Massachusetts charter.
1686. James Second all New England's States
A royal province made;
1686. Sir Edmund Andros was sent out
The government to aid.
But when King James had lost his throne,
This tyrant went to jail,
1689. And Boston's patriots sent him home,
With fifty more, by sail.
In three years more Sir William Phipps
1692. Was sent his place to fill;
New England's colonies remained
A royal province still.

INDEPENDENCE HALL, PHILADELPHIA.
Place where the Declaration of Independence was signed July 4, 1776.

Belief in witchcraft cursed the land

1692.

In sixteen ninety-two;

Wise Cotton Mather and great men

Declared the doctrine true.

In Salem persecution raged,

In jail were hundreds flung,

By torture fifty-five confessed,

And twenty folks were hung.

NEW YORK.

The Dutch sent Henry Hudson out,

1609.

Who came to New York Bay,

And up the river Hudson made

For sixty leagues his way.

In sixteen thirteen Adrian Block

1613.

First Hell Gate's passage made;

And many ships then came to seek

The fur and peltry trade.

The Dutch East India Company,

1623.

In sixteen twenty-three,

Sent thirty families of Walloons

With May across the sea.

These people were French Protestants

Who into Holland fled;

1626.

Eight families formed Albany,

The rest at Brooklyn stayed.

In twenty-six came Minuit,

Dutch power to augment;

The Indians sold Manhattan Isle,

Ten acres for a cent.

Fierce warfare with the Indians

Gave twenty years of care;

1655.

The Dutch by force of arms subdued

The Swedes of Delaware.

1664.

An English fleet arrived in port,

In sixteen sixty-four,

Demanding for the Duke of York

Surrender of the shore.

The Council yielded up the place

Against Stuyvesant's pleas;

The English flag above New York
Then floated on the breeze.
The Dutch, in sixteen seventy-three, 1673.
Through treason gained the town;
But gave it, after sixteen months,
Again to England's crown.
The tyranny of governors
Made Leisler take the rule,
Whom Sloughter most unjustly hung, 1691.
By liquor made a fool.
Against West India pirate craft
They sent out Captain Kidd, 1699.
Who hoisted up the pirate's flag,
"And wickedly he did."
In politics the Democrats
Were led by Rip Van Dam, 1732.
And party strife, for many years,
Kept passions in a flame.
The people feared the "Negro Plot," 1742.
To burn New York for gold,

And nearly eighty colored folks
Were hanged, or burned, or sold.

MARYLAND.

Lord Maryland secured a grant
Beyond Potomac's shore;
1634. The persecuted Catholics,
In sixteen thirty-four,
From England to St. Mary's came
In search of toleration,
1635-45. And Maryland was opened to
The oppressed of every nation.
Dissension came, and Clayborne twice
Against the crown rebelled;
The Protestants unjustly used
The powers that they held.
In civil wars and party strifes
The time was largely spent,
1715. Until the fourth Lord Baltimore
Secured the government.

THOMAS JEFFERSON.

Born 1743, died 1826, framed Declaration of Independence June 28, 1776, signed July 4, 1776,
elected third President of the United States 1801.

CONNECTICUT.

The river of Connecticut
Was found by Adrian Block, 1614.
In sixteen fourteen, and the Dutch
Its trading chances took.
Earl Warwick got a grant of land, 1630.
Expressed in current notion,
"From Narragansett River to
The great Pacific Ocean."
He soon transferred his interest 1631.
To Say-and-Seal and Brooke,
Who towards the region's settlement
Some active measures took.
In sixteen hundred thirty-three
Holmes' colony was made 1633.
At Windsor; Steele then brought a band 1635.
Who near to Hartford stayed.
A hundred more, from Boston, joined 1636.
Their friends the following year,

- “The light of Western Churches” styled,
Good Hooker gave them cheer.
1636. John Winthrop built the Saybrook fort,
And made a colony there,
Determined that these fertile lands
The Dutchmen should not share.
1637. The Pequod War distressed the land,
And thirty men were slain;
The Narragansetts were induced
As allies to remain
By Roger Williams, and they joined
The troops of Captain Mason,
Inflicting on the Pequod tribe
Complete extermination.
- John Davenport, with London friends,
1638. Arranged New Haven’s site;
Church members were the only men
Who held the voter’s right.
1662. A Royal Charter was obtained
In sixteen sixty-two;

READING THE DECLARATION OF INDEPENDENCE ON THE FOURTH OF JULY.

The Colonies of Connecticut

A bond of union drew.

When Andros came with sixty men,

The charter to revoke,

Brave Captain Wadsworth hid it safe

Within the "charter oak."

1687.

DELAWARE.

The Dutch came out to Delaware

In sixteen thirty-one,

But savages destroyed them all

Before a year was gone.

Then Swedes established colonies

In sixteen thirty-eight;

But Dutch and English finally,

Secured the little State.

1631.

1638.

NEW JERSEY.

New Jersey's settlement was made

In sixteen sixty-four,

1664.

And Carteret and Berkeley both
The landed titles bore.

1676. West Jersey passed within the hands
Of Quakers and of Penn,
Until in seventeen hundred two,
1702. It joined the East again,
And both were subject to New York
Till seventeen thirty-eight,
1738. When Governor Lewis Morris ruled
New Jersey separate.

THE CAROLINAS.

1663. Lord Clarendon and seven friends,
In sixteen sixty-three,
Secured the Carolina lands
From Charles the Second — free.
The colonies of Albemarle
And Carteret were formed;
To Charleston's genial settlement
Both Dutch and Huguenots swarmed.

JOHN QUINCY ADAMS.

Born 1767, died 1848, elected senator from Massachusetts 1803, appointed Minister to France, Secretary of State 1817, Monroe Administration; President, 1825.

In seventeen hundred twenty-nine

A separation came;

1729.

Then Carolina, North and South,

The royal rule proclaim.

PENNSYLVANIA.

Good William Penn, in eighty-two,

1682.

Brought out a chartered right,

And bargained fairly with the Swedes

For Philadelphia's site.

He paid respect to Indian tribes,

And treated them as men;

The Indians in turn resolved

"To live in love with Penn."

He went to England to reside

1684.

in sixteen eighty-four,

But came again in ninety-nine,

1699.

Remaining two years more.

His heirs controlled the government

Till revolution came;

1779. The State of Pennsylvania
Then paid them for their claim.

GEORGIA.

1733. Good General Oglethorpe came out,
In seventeen thirty-three,
And at Savannah formed a home,
Where debtors might be free.

KING WILLIAM'S WAR.

- King William's costly war with France
For seven years was waged,
1689. Canadian, French, and Indian bands
The colonists enraged.
1690. Schenectady, and other towns,
These foes attacked and burned;
The colonists were then aroused,
And warfare was returned.
1690. Port Royal, in Acadia,
Was plundered by a fleet,

CHARGING AN INDIAN CAMP.

But forces sent to Canada
Encountered sore defeat.

QUEEN ANNE'S WAR.

Queen Anne's War made with France
and Spain,

1702.

In seventeen hundred two,
Awoke the French and Indian
Hostilities anew.

The town of Deerfield was destroyed,

1704.

And all the frontier flamed;

Port Royal, by the colonists seized,

Annapolis was named.

1710.

South Carolina fruitlessly

1702.

Attacked St. Augustine;

A British fleet and troops were sent

To Boston by the Queen,

And led by Walker made attempt

1711.

Again to take Quebec:

Eight ships were lost; nine hundred men
All perished in the wreck.

KING GEORGE'S WAR.

For thirty years repose was had,
Till seventeen forty-four,
When France and England broke the peace
1744. And caused King George's War.
The English captured Louisburg,
But gave it back again,
And failing to make boundaries,
Let cause of war remain.

FRENCH-INDIAN WAR AND REVOLUTION.

1754. This brought the French and Indian War,
Disputed lands to gain,
Which sixteen million dollars cost,
And thirty thousand men.
1755. Defeat was met at Fort du Quesne,
And Braddock lost his life;

THE BATTLE OF BUENA VISTA.

"Down the hills of Angostura still the storm of battle rolls;
Blood is flowing, men are dying; God have mercy on their souls!"

George Washington then showed his skill,
Retreating from the strife.
In fifty-eight he led the attack 1758.
Retrieving this disgrace,
And Pittsburg, named for William Pitt,
Now stands upon the place.
Crown Point, Ticonderoga, both 1759.
Were yielded by the foe,
Niagara was then obtained 1759.
By Johnson and Prideaux.
Acadia and Louisburg, 1757.
With all Cape Breton's isle,
Were gained; and Wolfe secured Quebec, 1759.
Expiring with a smile.
The Paris treaty closed the war, 1763.
In seventeen sixty-three,
And England held the continent
Across from sea to sea.
The thirteen colonies progressed
In wealth and population,

Oppressions of the parent land
Aroused their indignation.

Their manufactures were suppressed,
All foreign trade prevented,
And taxes laid by parliaments,
Where none were represented.

Their homes were searched by officers
With Writings of Assistance:

James Otis gave the trumpet call
That roused the first resistance.

1765. The Stamp Act stirred the populace,
And mobs defied the law;

The Sons of Liberty combined,
And home-made clothes they wore.

The English merchants losing trade,
1766. The Stamp Act was repealed;

Then William Pitt and Edmund Burke
Their love of right revealed.

On colors, paper, glass and tea
1767. New taxes soon were laid,

DANIEL WEBSTER.
Born 1782, Died 1852. Orator and Statesman.

And Boston had to tolerate
An English Board of Trade.
Then England sent some soldiers out,
And passed the Mutiny Act,
Which ordered colonists to provide
All things the soldiers lacked.
Two regiments, with General Gage, 768.
On Boston town were quartered;
The State Street massacre took place; March 5, 1770.
Three citizens were slaughtered.
The rising of the populace
Filled England with alarm;
By taking duties off of goods,
She sought to undo the harm.
But just to keep the principle,
The tax was kept on tea,
And Boston's patriots emptied out
A portion in the sea. Dec. 16, 1773.
Of Massachusetts, General Gage 1774.
The governor was made.

1774.

The Boston Port Bill then was passed,

Which closed its foreign trade.

A Continental Congress held,

In seventeen seventy-four,

In Philadelphia, resolved

The English acts to ignore.

New York, Virginia, and the South

Were filled with freedom's breath,

And echoed Patrick Henry's cry

For liberty or death.

Eight hundred men were sent by Gage

For arms at Concord stored;

The famous ride of Paul Revere

Soon spread the news abroad.

April 19, 1775.

The minute men at Lexington,

Opposed the advancing host:

The British fired on the band,

And eight good lives were lost.

At Concord they destroyed the stores

And hastily returned,

BUNKER HILL MONUMENT, AT CHARLESTOWN, MASS.
Erected to commemorate the Battle of Bunker Hill, June 17, 1775.

For all the country was aroused;
Each man for vengeance burned.
From houses, fences, trees and rocks
The musket bullets sped,
And near three hundred men were lost,
As home the soldiers fled.
Ticonderoga and Crown Point
Americans secured,
And large supplies of stores and guns,
Much needed, were procured.
A second congress met to raise
An army for the land:
George Washington was authorized
To take the chief command.
Near twenty thousand fighting men
Surrounded Boston soon,
And battle raged at Bunker Hill
The seventeenth of June.
The British twice fled down the hill,
But on the third attack,

1775-

June 17, 1775-

The ammunition being spent,
They drove the "Yankees" back.

Dec. 31, 1775.

Montgomery attacked Quebec,
But fell when first they fired;
They wounded Arnold, Morgan seized,
The rest in spring retired.
The Heights of Dorchester were armed
By colonists at night,
